In preparation for fifth grade, please encourage your children to read every day. Making this a routine and setting a set time to read every day helps! After your child has read silently, ask several questions to make sure they understood what was read.

Also, please have your child practice their multiplication and division facts each day. This will help them greatly be prepared for fifth grade math!

We are so excited to meet your child and have a wonderful School year together!

Thank you so much,
The Fifth Grade Teachers
